Dear Redevelopment Board Members,

I'm writing in support of Article 45, to increase the percentage of affordable housing units in new private developments from 15% to 25%. I'm in favor of this article because there is an immense need for more affordable housing in Arlington, and Covid-19 has made this need even more urgent. Amending our inclusionary zoning rate is one of many ways we can help increase the amount of affordable housing in town.

Just looking at our rate of affordable housing compared to towns around us, it is obvious we are far behind. The redevelopment board has been doing a lot of work to increase affordable units, yet from 2001 to 2018 Arlington only increased its subsidized housing inventory percentage by 0.1%. Housing affordability is an emergency and it's clear we need to do more to reach our goal of 10% affordability.

Too many incredible friends of mine in Arlington have told me they may need to leave. Off the top of my head I am thinking of a town meeting member who is an artist, another TMM who is a woman of color and grew up here, another artist who had been here for almost 40 years.. the list goes on.

Back in June of last year, the town pledged to work on rooting out systemic racism in all areas, including housing. In the absence of regulations of rental prices, increasing the availability of affordable housing stock is one way to ensure greater economic and racial diversity in our town. Without meaningful affordable housing, market-rate housing is set at prices that are exclusionary to most Black and brown people, as well as those populations more likely to live on fixed incomes or rely on housing vouchers, such as people with disabilities. If our goal is to make Arlington a place for people of all backgrounds and abilities, we need to make housing more affordable.

Thank you, Lynette Martyn
