Re: Registration Fee for Vacant Storefronts and Economic Development Report

The Arlington Commission for Arts and Culture requests the Select Board to authorize the creation of a donation account to support the Arlington Commission for Arts and Culture, including committees dedicated to furthering our mission to preserve and promote the cultural and artistic resources in town and establish Arlington as a significant cultural destination. The Commission is seeking to raise funds to support our efforts to create a vibrant cultural district through strategic programming of public art, musical performances, and other arts-related events. The types of expenditures that this fund would support include enhancing programs and festivals in town with commissioned artists, musicians, and other performers.
