Failure to promulgate rules and regulations will not have the effect of suspending or invalidating this bylaw.

B. The Engineering Division shall utilize the policy, criteria, and information, including specifications and standards, of the latest edition of the Massachusetts Department of Environmental Protection's revised Surface Water Discharge Permit Regulations at 314 CMR 3.06(11)(b)5 Storm Water Management Policy for execution of the provisions of this bylaw.

ARTICLE 16
TREE PROTECTION AND PRESERVATION
(ART. 22, ATM - 05/02/16)

Section 1. Findings and Purpose

The Town of Arlington finds that preservation of the tree canopy and planting of replacement trees is essential to preserving the character and aesthetic appearance of the Town and maintaining quality of life and the environment in the Town. Trees improve air quality, protect from heat and glare, reduce noise pollution, limit topsoil erosion and storm water runoff, provide natural flood control, enhance property values, contribute to the distinct character of neighborhoods, and offer natural privacy to neighbors.

A. The following definitions shall apply to this By-law:

"Building Footprint" - Outline the total area covered by a building's perimeter at ground level.

"Caliper" - Diameter of a tree trunk (in inches) measured six inches above the ground for trees up to and including four-inch diameter, and 12 inches above the ground for larger trees.

"Demolition" - Any act of destroying, pulling down, removing or razing a building or commencing the work of total or substantial destruction of a building.

"Protected Tree" - Any existing healthy tree on private land with a DBH of ten (10) inches or greater, located in the setback area, which does not pose an immediate hazard to person or property or is not under imminent threat of disease or insect infestation.

"Setback Area" - The Portion of the property which constitutes the minimum depth of side, rear and front yards as per the Zoning Bylaw of the Town of Arlington.

"Tree Fund" - An existing Town account established for the purpose of buying, planting, and maintaining trees in the Town which may receive deposit of contributions in lieu of planting new trees by property owners and fines collected under this By-law.

"Tree Plan" - A site plan drawn and stamped by a certified land surveyor or engineer showing all Protected Trees in the setback areas and indicating, on the site plan or in a separate document, which Protected Trees will be retained, which will be removed, and, as to Protected Trees which will be removed, whether mitigation will be by replacement on the property or by payment into the Tree Fund.

"Tree Removal" - The cutting down of a tree

"Tree Warden" - The Tree Warden or his/her designee.

- B. Additional definitions may be provided in rules and regulations approved by the Board of Selectmen where consistent with intent and efficient execution of this By-law.
