Hi Diane. My name is Mark Lepler and i live at 7 wachusett ave. You have been so helpful and responsive to issues in our area so i am reaching out to you to please help our street. 2 out of every 5 cars run right thru the stop sign on the corner of appleton(going west) crossing over wachusett. All of the kids in the area are outside and scramble when someone goes right thru the stop sign. I am watching it all day today. The police have been great and sitting at the intersection as much as they can and are effective. Unfortunately they cannot be there enough or every day. I would ask that we get a speed bump at that sign that can be removed in the winter time for snow plows. There is a liability to the town of Arlington now that i am reaching out and will get the towns attention. I put up a yellow marvin and everyone crossing the street thanked me as we all are worried about our kids. Can you please please help before someone gets hurt. Thank you
Mark Lepler [617-901-9852](tel:617-901-9852)
