TO: Arlington Select Board  
RE: Old Burying Ground tree removal

We write to reiterate the support of the Community Preservation Act Committee for the preservation plan of the Old Burying Ground, including the necessary removal of the trees before you at your August 17, 2020 meeting.

At every phase of funding this important project, the Committee clearly understood that it would be necessary to remove certain trees that are damaging protected historic resources and preventing safe access for restoration work.

Mr. Feeney has done a commendable job informing us about the planning and progress of this important project, and we support his present request before you.

Sincerely,

**Eric Helmuth, Chair**

**Clarissa Rowe, Vice Chair**
