

*Hello people who are on the zoning board.* The reason you should keep them from building the big building on the

Wetlands is because:

- #1 the cars and trucks or any building vehicles would add a lot of pollution to the air
- #2 it would destroy a lot of trees
- #3 it would destroy a lot of animal habitats
- #4 it would possibly destroy animals by having wheels run over them
- #5 it would use a lot of electricity
- #6 it would flood our neighborhood
- #7 it would add a lot more traffic (especially mass ave and the neighborhood)
- #8 kids can't play in the street or ride bikes (See #7) we wouldn't be able to do chalk parties
- #9 it is not safe to build in the Wetlands
