

The undersigned homeowners and citizens of the town of Arlington have no objections to the petition filed by Bruce McKenna of Arlington, Massachusetts on August 20, 2021 seeking permission to alter his property located at 125-127 Webster St. (Block Plan 044.0-0005-0010.0). The signatories believe the granting of the Special Permit under Section 8.1.3 (B) and Variance under Section 6.00 respectively of the Zoning Bylaw for the Town for Arlington would have no adverse effects on the aesthetics or functioning of the neighborhood, and believe supporting the ability of multi-generational families to remain in Arlington benefits the community as a whole.

To Whom It May Concern:

My husband Richard Berry and I would like to voice our support for the permit and variance requested by Bruce McKenna at 125-127 Webster Street. We have lived at 93 Warren Street for over 30 years, down the street from my own parents, and would like for our daughter, Katherine Berry, to be able to remain in Arlington as well. As prices have risen in the town over the years, it has become infeasible for many families who have long lived here to purchase or rent property in their home area. Kate and her siblings have always been very involved in the neighborhood where they grew up, visiting their aunts and uncles, grandparents, and other elderly residents, babysitting and shoveling for neighbors, and spending time with local friends. One of the wonderful aspects of Arlington is the development of these sorts of supportive communities, and we hope the town sees the value of enabling the continuation of such networks as times change. It is important to us to have our daughter and her fiancé, Luke Weaver, also a lifelong resident, remain in Arlington and continue to cultivate positive community ties, and stay in close contact with their families and loved ones. We find no issue with the raising of the roof at 125-127 Webster St, and encourage the facilitation of multi-generational homes in the town.

To Whom It May Concern:

As a lifelong Arlington resident and the grandmother of Katherine Berry, one of the petitioners for this variance, I support the raising of the roof at 125-127 Webster St. I have lived in Arlington my entire life, first on Mill St, and for the last 65 years at 47 Palmer St with my husband Frank. Three of our daughters, Kate's mother included, also stayed in Arlington to raise their families here. It is very important to us that my granddaughter and her fiancé Lucas Weaver, who have otherwise been priced out of buying a house or condo in Arlington, be able to stay in their hometown and live close to their loved ones. Kate currently stays with us, and regularly assists with medical care for her grandfather who is at home on hospice; we hope she will be able to live close by and continue visiting us once she is married and moves away. As a family-oriented town, it is in Arlington's interests not to prevent a young couple from remaining local, so that they can continue to support the schools, communities, shops, and natural areas that are dear to them.
