Thorndike Place introduces higher density residential development to the residential & commercial neighborhood. The compact project produces mixed income multi-family housing with residential neighbors on one side and preserved conservation land on the other. Six ownership duplex townhouses complete and complement the existing streetscape on Dorothy Road. The project utilizes existing water infrastructure and improves storm water management. The site is located to maximize easy access to the Alewife T station, buses and the Minuteman Bike Path as well as an easy walk to a wide range of amenities including retail, places of employment, houses of worship, recreational opportunities, etc. The proposal's civil design program will alleviate neighborhood flooding conditions caused by site's current topography.

* All units are required by MassHousing to be Energy Star Efficient. Please include in your explanation a description of how the development will meet Energy Star criteria.			
Explanation (Required) Thorndike Place will use GreenStaxx, Oaktree's unique, patented system that is less expensive to maintain at a lower operating cost due to: Energy Star appliances, individually controlled, cost-saving energy efficient HVAC systems, water-conserving plumbing fixtures, LED lighting, operable highly insulated windows and the most advanced exterior wall construction. As a transit-oriented development, residents of Thorndike Place will have numerous alternatives to owning and operating a car.
