Hi Jenny:

Do any of these 3 options work as a response to the request of the members with respect to rain leaders?

Could you please let me know.

Thank you.

Bob

Bob,

See attached. Our architects have been working diligently since Thursday (4/28) to design an elevation that integrates the rain leaders. And we have settled on 3 options but want to make sure we are correctly inferring the ARB's suggestions.

I know we can't speak to the Board but could we possibly solicit feedback from Jenny and Kelly to let us know if we're on the right track?

Give me a call tomorrow morning and let's discuss the best way to get meaningful feedback.

Thanks,
Jesse Morgan
