### RESOLUTION IN SUPPORT MASSACHUSETTS HOUSE BILL 2870

*An Act Relative to Protecting Consumers of Gas and Electricity from paying for Leaked and Unaccounted for Gas*

**WHEREAS:** Massachusetts House Bill 2870 is an “An Act Relative to Protecting Consumers of Gas and Electricity from paying for Leaked and Unaccounted for Gas (UFG)” which seeks to protect all gas and electricity customers, whether businesses, manufacturers, homeowners and municipalities or other gas users, from paying for UFG by prohibiting providers from including the cost of UFG, as well as the costs of reducing or remedying loss in the rate base; and

**WHEREAS:** According to H. 2870, “Unaccounted for gas or UFG is the difference between the total gas available from all sources that is acquired by a system type and the total gas accounted for as sales, net interchange or company use”; and

**WHEREAS:** H. 2870 covers leakage or loss by leakage or loss due to discrepancies from measuring or monitoring inaccuracies, variations of temperature or pressure, or both, and other circumstances; and

**WHEREAS:** The cost of UFG is typically passed on from providers of natural gas to users or consumers of gas; and

**WHEREAS:** Leaking gas in the ground is harmful to vegetation and can kill valuable shade trees by depriving roots of oxygen; and

**WHEREAS:** Methane is a precursor to ozone formation that can decrease lung function and aggravate asthma; and

**WHEREAS:** H. 2870 will provide economic incentive to gas providers to develop improved technologies and practices for transportation, distribution and storage;

**NOW, THEREFORE, BE IT RESOLVED**, that we, the Members of the Board of Selectmen, strongly support House Bill 2870 and urge the Massachusetts Legislature to take action to support this measure to protect consumers and the environment.

# Massachusetts Gas Leaks Legislation

---

OCTOBER 6, 2015

DAVID ZEEK

SIERRA CLUB, MASSACHUSETTS CHAPTER

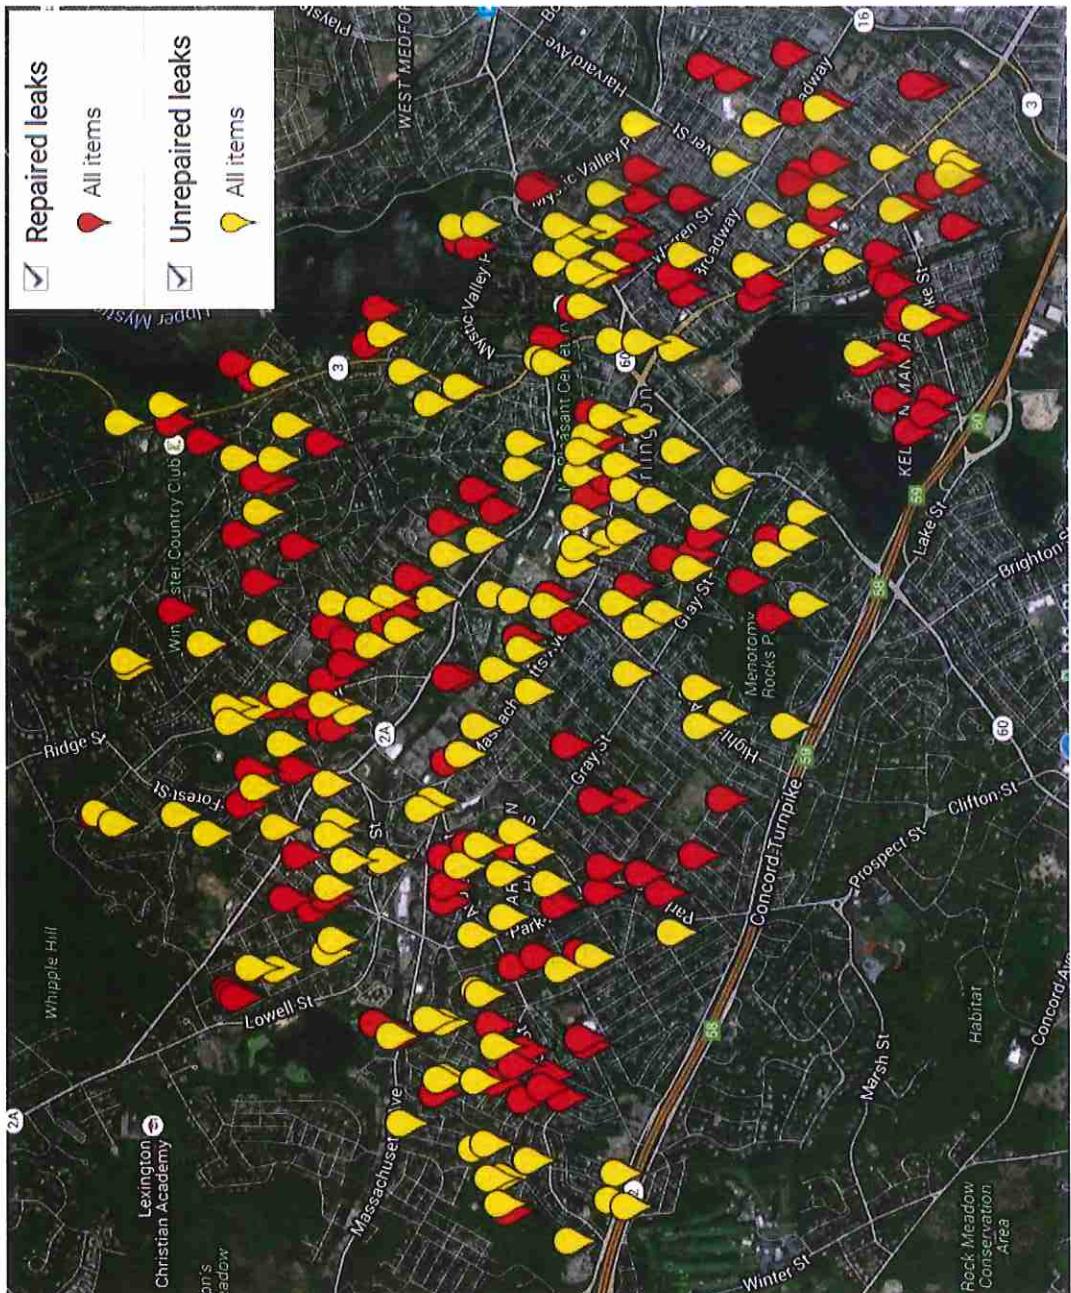

Leaks threaten safety, health, and the environment.  
Leaks waste a valuable resource. And we pay for it!

## Natural Gas Leaks: A Waste and a Threat

Massachusetts has one of the nation's oldest natural gas pipeline systems.

- Over 25,000 leaks
- 8-12 billion cubic feet of lost gas
- Costs Massachusetts ratepayers \$38.8M annually

(Rep. Ehrlich fact sheet)

From <<http://www.heetma.org/squeaky-leak/natural-gass-leaks-maps/>>

# Arlington Has 154 Unrepaired Gas Leaks

The oldest is from 1996.

# What's Wrong with Gas Leaks?

Unaccounted For Gas exceeds 8 billion cubic feet per year – possibly as high as 19 billion

That lost gas is worth, on average, between \$50M and \$128M per year

Gas utilities are not required to repair Grade 3 (non-threatening) gas leaks – ever!

Gas utilities can completely recover the cost of that lost gas through charges to customers.

Natural gas (methane) is a global warming gas 84 times as bad as carbon dioxide for 20 years.

Natural gas kills plants and creates ozone which affects human health and allergies.

UFG is Unaccounted For Gas	Lower Bound		Upper Bound	
	UFG Volume (cubic feet)	Estimated Cost of UFG	UFG Volume (cubic feet)	Estimated Cost of UFG
2000-2011	99,294,819,000	\$640,252,916	227,154,754,000	\$1,536,298,783
Annual Average	8,274,568,250	\$53,354,410	18,929,562,833	\$128,024,899

"America Pays for Gas Leaks," Table 3, Page 7. This report was prepared for Sen. Ed Markey by the House Natural Resources Committee Democratic staff.

Table 8.1 GWP and GTP with and without inclusion of climate-carbon feedbacks (cf fb). In response to emissions of the indicated non- $\text{CO}_2$  gases (climate-carbon feedbacks in response to the reference gas  $\text{CO}_2$  are always included).

Gas	Lifetime (years)	GWP <sub>20</sub>		GWP <sub>100</sub>		GTP <sub>20</sub>		GTP <sub>100</sub>	
		No cf fb	With cf fb	No cf fb	With cf fb	No cf fb	With cf fb	No cf fb	With cf fb
$\text{CH}_4$	12.5 <sup>a</sup>	84	84	28	28	67	67	4	4

CFC-11	45.0	No cf fb	3710	1300	3050	3050	201	201	201
$\text{N}_2\text{O}$	121.0 <sup>b</sup>	No cf fb	3790	1550	3170	3170	330	330	330
CF <sub>4</sub>	50,000.0	No cf fb	6900	4650	6390	6390	2240	2240	2240
		With cf fb	7020	5350	7080	7080	3450	3450	3450
		No cf fb	264	265	277	277	234	234	234
		With cf fb	268	288	284	284	297	297	297
		No cf fb	4880	6630	5270	5270	8040	8040	8040
		With cf fb	4950	7350	5400	5400	9550	9550	9550

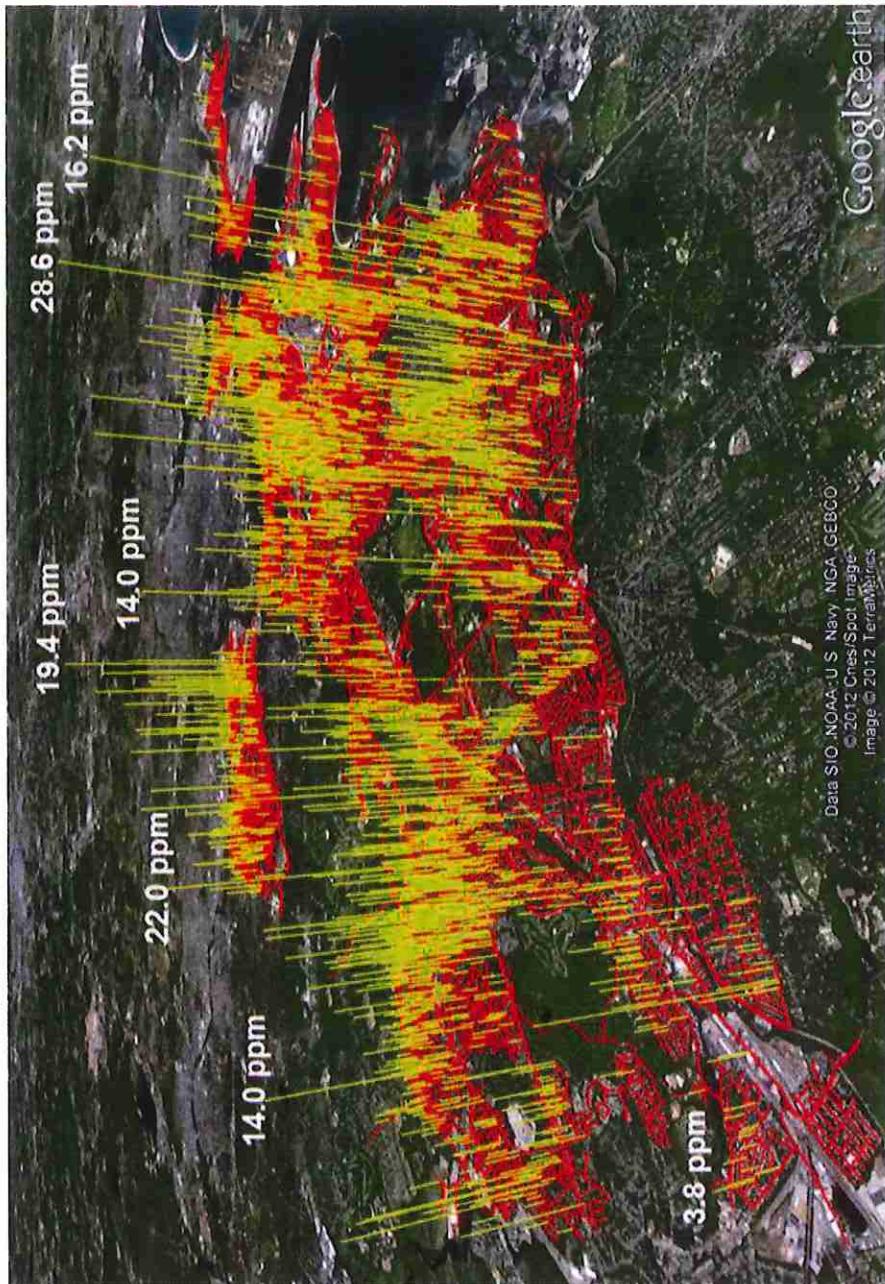

Notes:  
Uncertainties related to the climate-carbon feedback are large, comparable in magnitude to the strength of the feedback for a single gas.

<sup>a</sup> Perturbation lifetime is used in the calculation of metrics.

<sup>b</sup> These values do not include  $\text{CO}_2$  from methane oxidation. Values for fossil methane are higher by 1 and 2 for the 20 and 100 year metrics, respectively (Table 8.A.1).

IPCC Climate Change Report, "Climate Change 2013: The Physical Science Basis"

Some leaks have existed for decades! It is time for Massachusetts to fix this problem

## Methane Emissions over Boston

researchers at Boston University  
detected thousands of methane leaks  
in the City of Boston. ©Nathan Phillips

# Two Gas Leaks Bills in the Massachusetts Legislature Address This Problem

---

Two bills assigned to the Joint Committee on Telecommunications, Utilities and Energy ensure that gas consumers no longer pay for gas leaked from neglected, obsolete and decrepit pipes

H.2870, An Act Relative to Protecting Consumers of Gas and Electricity from Paying for Leaked and Unaccounted for Gas

- Prohibits utility companies from charging customers for the cost of lost and unaccounted for gas, protecting consumers from expenses that they have no ability to control or reduce
- Prohibits utility companies from charging customers to reduce or remedy the losses, i.e., fix the leaky pipes
- Consumers means homeowners, businesses, companies using gas in manufacturing, municipalities, state, and federal government
- Presented by Rep. Lori Ehrlich and Sen. James Eldridge with 49 additional petitioners

H.2871, An Act Relative to Gas Leak Repairs During Road Projects

- Requires all gas leaks under a road to be repaired when it is opened up for a construction project. This is a sensible, cost saving, efficient way to ensure more leaks are repaired.
- Expands coverage of safety leaks bill passed last year
- Presented by Rep. Lori Ehrlich with 47 additional petitioners

These bills provide sound economic incentive to fix the problem.

# Municipal Support for Gas Leaks Legislation

Your community can voice its support for these bills.

Seven municipalities have already passed resolutions supporting one or both gas leaks bills

## Resolution

### Concerning Lost and Unaccounted For Gas

June 8, 2015

WHEREAS... "Unaccounted For Gas" (UFG) or "Lost And Unaccounted For Gas" (LAUF) represents the difference between the total gas from all sources and the total gas accounted for at sales, interchanges, and use and includes leakage or loss by other means, discrepancies in measuring or monitoring, variations of temperatures or pressures, and other variants; and

WHEREAS... The cost of UFG is typically passed down from providers to consumers, and WHEREAS... Leaking gas in the ground is harmful to vegetation and can kill valuable shade trees by depriving roots of oxygen, and

WHEREAS... Massachusetts House Bill (H.2870), "An Act relative to protecting consumers of gas and electricity from paying for leaked and UFG," seeks to protect all gas and electricity customers from paying for UFG, by prohibiting providers from including the cost of UFG, as well as the costs of reducing or removing loss, in the rate base; and

WHEREAS... H.2870 will provide economic incentive to gas providers to mitigate loss, promoting development of improved technologies and practices, as well as to reduce heat-trapping gasses released during transportation, distribution and storage, which have an impact on global warming;

THEREFORE, BE IT RESOLVED... That the Waltham City Council supports H.2870, and

BE IT FURTHER RESOLVED... That the Waltham City Clerk forward an engrossed copy of this resolution to the elected Waltham delegation in the House and Senate as well as House Speaker Robert A. DeLeo and Senate President Stanley C. Rosenberg on behalf of the entire Waltham City Council;

Read and adopted \_\_\_\_\_

Respectfully submitted:

Councillor George A. Darcy III \_\_\_\_\_

Councillor Stephen F. Ronke

# Grades of Gas Leaks

Massachusetts Law (2014) Chapter 149 AN ACT RELATIVE TO NATURAL GAS LEAKS changes to:  
Chapter 164, MANUFACTURE AND SALE OF GAS AND ELECTRICITY, Section 144.

- (a) There shall be uniform natural gas leaks classification for all gas companies.
- (b)
  - (1) Gas companies shall assess a grade to all reported natural gas leaks based on the system provided in this section.
  - (2) A **Grade 1** leak shall be a leak that represents an existing or probable hazard to persons or property. **Grade 1** leaks require repair as **immediately as possible and continuous action until the conditions are no longer hazardous**. The gas company shall immediately schedule a completion of repairs and the condition shall be kept under continuous surveillance until the hazard or source of the leak is eliminated. Whenever appropriate and feasible, a gas company shall notify the fire department and chief law enforcement officer in each city or town where a Grade 1 leak is identified.
  - (3) A **Grade 2** leak shall be a leak that is recognized as non-hazardous to persons or property at the time of detection, but justifies scheduled repair based on probable future hazard. The gas company shall repair **Grade 2** leaks or replace the main **within 12 months from the date the leak was classified**. All Grade 2 leaks shall be reevaluated by a gas company at least once every 6 months until eliminated; provided, however, that the frequency of reevaluation shall be determined by the location and magnitude of the leakage condition.
  - (4) A **Grade 3** leak shall be a leak that is recognized as non-hazardous to persons or property at the time of detection and can be reasonably expected to remain non-hazardous. The gas company shall reevaluate Grade 3 leaks during the next scheduled survey, or within 12 months from the date last evaluated, whichever occurs first, until the leak is eliminated or the main is replaced. A municipal or state public safety official may request a reevaluation of a Grade 3 leak prior to the next scheduled survey, or sooner than 12 months of the date last evaluated, if the official reasonably believes that the Grade 3 leak poses a threat to public safety.

<https://malegislature.gov/Laws/SessionLaws/Acts/2014/Chapter149>

Repair of Grade 1 and Grade 2 leaks was mandated in 2014 legislation.

# Gas Leaks in the News
