Neighbors,

I would like to attend the upcoming meetings of June 20, July 11th and 25th via Zoom.

I've resided at 7 Osborne Road in East Arlington for 26 years and continue to have to manage flooding after moderate and strong rain events. Our basement use is very limited due to the water seepage. I don't need an environmental engineering degree to know that this FEMA floodplain cannot withstand the massive proposed Thorndike Place project and will drive us long term residents out of our beloved safe, quiet and close knit neighborhood.

I look forward to the hearings to express vehement opposition.

Thank you,

Helene Martel
