To: Conservator Commission,

I am an owner of a property near Mugar wetlands. When I moved in to 5-7 Mary Street in 1983, my cellar was "bone dry". Over the years, with development nearby, my cellar has flooded and is now continually damp. I worry about mold. The Thorndike Place Project would definitely add to this problem. I also am concerned for the local wildlife that would be impacted by this building project. Please vote against this ill conceived venture.

Thank you for the work that you do.

Sincerely,  
Elisabeth Ann Logan
