Dear members of the Zoning Board of Appeals,

The proposed Boston Gas project is not truly necessary. Immediately, it would harm the neighborhood's beauty and resilience. Long term, it means yet more loss of tree cover, natural walking spaces, and wildlife habitat in Arlington, and more contribution to damaging climate change.

The project would be convenient for Boston Gas--and that is no reason to damage the health, beauty, and resilience of any part of our town.

Please do not let this proceed. Boston Gas can upgrade the existing facility instead of destroying what little remains of our natural heritage in Arlington.

Sincerely,

Allysen Palmer Carver
102 Melrose St.
