**ARTICLE 9: PLASTIC BAG REDUCTION**

**COMMENT:** The Board of Selectmen recommends favorable action on this detailed, well researched proposal by Town residents to reduce the number of plastic bags used for checkouts at grocery stores, pharmacies, retailers, and restaurants in Arlington. As presented to this Board, not only are plastic bags often an eyesore throughout our community and a waste of finite natural resources, but they also jam recycling machinery, do not biodegrade in landfills, release toxic emissions when incinerated, and present dangers to marine wildlife. They also have extremely low recycling rates where recycling rather than prohibition is pursued.

The proposed bylaw is endorsed by the Arlington Recycling Committee, the Arlington Board of Health, the Friends of Spy Pond Park, and a number of other civic organizations, and builds upon the successes of other, similar measures in neighboring communities ranging from Concord to Somerville. Moreover, thorough research of such communities' experiences strongly suggests that there will be no added costs to consumers. Finally, several Arlington retailers and restaurants which have voluntarily ceased use of plastic bags for checkout/carry-out purposes note that their costs have generally declined or remained level as paper alternatives and reusable bags have proved more cost-effective for both them and their customers.
